

ENVIRONMENTAL STEWARDSHIP CERTIFICATE

Direct Energy Business proudly recognizes

AURORA SPECIALTY TEXTILES GROUP, INC.

for purchasing 2,501,000 kWh of Renewable Energy Attributes

According to the EPA Greenhouse Gas Equivalencies Calculator, the same amount of electricity produced using conventional fuels, such as coal, emits a national average of 1,861 Tons of carbon dioxide, a key greenhouse gas. By purchasing RECs, your business is also investing in the U.S. economy and the development of new, renewable electricity generation technologies that could fuel businesses and consumers in the future.

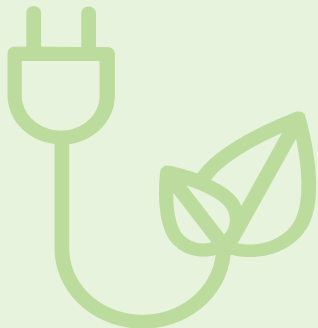

Green-e® Energy certifies that the RECs sold by Direct Energy Business meet the environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e Energy certification requirements, log onto www.green-e.org.

A handwritten signature in black ink, appearing to read "John Schultz".
